Section .LONDON.5. Sunrise

5.1 Eligibility rules

Only owners of a trademark registered with the trademark rights protection mechanism “[TMCH](#)” (Trademark Clearinghouse) established by ICANN are eligible to make a request during the Sunrise period.

As a TMCH trademark agent, Gandi can proceed with the registration of Your trademarks with TMCH (service reserved to Our Corporate customers, please contact Our [Corporate team](#)).

Eligibility conditions concerning the registration of a trademark with TMCH and the applicable rules are available at the following address: <http://www.trademark-clearinghouse.com/downloads>

Once Your trademark has been validated, TMCH generates one or several "labels" strictly identical to Your trademark.

Upon the submission of Your trademark with TMCH, You can choose the Sunrise service, provided that Your trademark has been validated by TMCH. The Sunrise service includes:

- generating a “SMD” (Signed Mark Data) file that proves the validation of Your trademark and allows You to make a registration request during the Sunrise period for one or several domain names strictly identical to the “label(s)” generated, provided that You comply with the eligibility conditions and rules enacted by the Registry,
- sending notifications (NORNs) that inform You of the registration of a domain name identical to Your trademark by a third party during the Sunrise period.

During Your registration request on Our interface, You must upload Your “SMD” file for verification.

5.2 Allocation rules

Sunrise applications are not reviewed on a “first-come first-served” basis, they will be considered as having arrived at the same time:

- if only one qualified application is made for a domain name, the domain name will be registered on behalf of applicant within the days following the end of the Sunrise period,
- if multiple qualified applications are made for the same domain

name, the domain name will be subject to closed auction between all applicants for this domain name. The rules applicable to the auction procedure are available at the following link:

<http://www.dotlondondomains.london/wp-content/uploads/2014/04/Dot-London-Sunrise-Landrush-Policy.pdf>

All registrations during the Sunrise will take precedence to London Priority Period (Landrush) registrations.

Domain names listed on the ICANN block list (ICANN's SLD Name Collision block list) which You may find at the following page:

<http://www.icann.org/sites/default/files/tlds/london/london-apd-list-12nov13-en.csv> are available for registration during the Sunrise period but will be activated when ICANN will authorize their registration.

When a domain name is allocated to You in Sunrise period, the third parties that are the owners of an identical mark registered within TMCH are notified of Your registration.

5.3 Dispute resolution

Any dispute relative to the validation of Your trademark with TMCH must be submitted in accordance with the dispute resolution procedure established by TMCH:

<http://www.trademark-clearinghouse.com/dispute>

Any dispute arising from the allocation of a domain name during the Sunrise period must be submitted in accordance with the dispute resolution procedure established by the Registry that You agree fully abide by:

<http://www.dotlondondomains.london/wp-content/uploads/2014/04/Dot-London-SDRP.pdf>

5.4. Refund Conditions

In any case, You will not be entitled to receive any refund if Your application is rejected (eligibility criteria not met, “SMD” file invalid or revoked ...) or if the domain name is not granted to You (domain name granted to an other person during an auction, if a third party has successfully challenged the domain name registration ...).

Section .LONDON.6. London Priority Period (Landrush)

6.1 Eligibility rules

This phase gives priority to London based businesses, organizations and individuals and takes place simultaneously to the Sunrise Period but before General Availability.

6.2 Allocation rules

The .LONDON Registry will rank the applications according to their priority. For more information about the priority of an application during the London Priority Period please read the [London Priority Period Rules](#).

Applications are not reviewed on a “first-come first-served” basis, they will be considered as having arrived at the same time:

-if only one qualified application is made for a domain name, the domain name will be registered on behalf of applicant within the days following the end of the Sunrise and the London Priority Period,

-if more than one application is received for the same domain name, a “contention set” will be created. Applicants in a contention set will be grouped in accordance with the Priority Order set out in the London Priority Rules. If one applicant ends up in the highest priority order, then the domain name will be allocated to such applicant. If however there is more than one application in the same highest priority order then those applicants will have the opportunity to resolve the contention set via an auction mechanism. The rules applicable to the auction procedure are available at the following link:

<http://www.dotlondondomains.london/wp-content/uploads/2014/04/Dot-London-Sunrise-Landrush-Policy.pdf>

It is of utmost importance to bear in mind that :

1. Sunrise applications will have priority over any other applications submitted during the London Priority Period
2. London Priority 1 will have priority over London Priority 2 and London Priority 3; and
3. London Priority 2 will have priority over London Priority 3

.LONDON Registry will contact applicants when there is more than one application for a domain name (i.e, a contention set). Applicants will be contacted by email and will be provided with login details to access the validator's online platform. Once the applicant logs in to the validation system, they will be asked to select the priority order applicable to their application and provide the required information. The validator will then check the details provided by the applicant and confirm whether the applicant satisfies the requirements for the priority category they selected. As part of the validation process, applicants in a contention set may provide required information and supporting documentation in the validation system. The validator may require additional documentation, and/or evidence from applicants to complete the validation process.

6.3 Dispute resolution

Any dispute relative to Your Priority Order for the registration of a domain name during the London Priority Period must be submitted in accordance with the dispute resolution procedure established by the Registry that You agree fully abide by:

<http://www.dotlondondomains.london/wp-content/uploads/2014/04/Dot-London-Priority-Period-Rules.pdf>

6.4. Refund Conditions

In any case, You will not be entitled to receive any refund if Your application is rejected (eligibility criteria not met) or if the domain

name is not granted to You (domain name granted to an other person during an auction, if a third party has successfully challenged the domain name registration ...).

Section .LONDON.7. “Trademark Claim Notice” period

In accordance with ICANN rules, during the London Priority Period (Landrush) period and 90 days upon the general opening, a “Trademark Claim Notice” period will run.

During this period if the domain name for which You requested registration is identical to a trademark that is registered and validated with TMCH (according to the “labels” generated), You will receive a warning notice (“Trademark Claim Notice”) in real time on Our interface informing You that a third party has rights to the domain name You requested.

You must confirm or cancel Your registration request, with full knowledge of the notice and its consequences. It being specified that if You do not confirm the notice, Your request will not be sent to the Registry.

If You confirm Your registration request, the third parties that are the owners of/who own an identical mark are notified of Your registration.

For requests made in preregistration, beginning one day prior to the opening of the period concerned, Gandi will notify You by email of the “Trademark Claim Notice” and Your registration request will be put in “error” until You confirm or cancel Your registration via Our interface. It being specified that, in accordance with ICANN rules, if You do not confirm the notice, Gandi will not send Your registration request to the Registry upon the opening of the concerned period and cannot, in any case, be held liable for the non-registration of Your domain name and particularly if the domain name is registered by a third party who has validated the “Trademark Claim Notice” upon the opening of the period concerned.
