The specific transfer rules can be viewed at:

The process is started on Our Interface. Before requesting the transfer of the domain, please be sure that You have the domain's authorization code (supplied by Your current Registrar), and that Your domain name:

- does not have a TransferProhibited status,
- does not expire soon (We recommend starting the transfer process at least one month prior to the domain's expiration date),
- was created at least 60 days prior to the request, or transferred at least 60 days prior to the request.

The transfer's completion requires your confirmation (by e-mail).

Upon successfully transferring a domain, the registration period is extended by one year.

Trades (changing the owner during a registrar transfer) are not possible.

Section .PRO.8. Ownership change

The owner change process requires paper forms (Gandi's owner

change form and proofs of identity).

The owner change of a .PRO domain name does not change the domain's Expiration date.

Section .PRO.9. Deletion process

One day before the Expiration date, the domain name is released by Gandi to the Registry. All associated technical services are deactivated. The domain **can not be renewed or restored**, and it will be deleted by the Registry, and will become available for registration under the "first-come first-served" basis.
