The following diagram presents the various parties involved in the providing of this service.

When You apply to register a domain name in one of the proposed extensions, You acknowledge that You have fully understood, and that You certify to have full knowledge of and that You agree to abide by all the rules and specific conditions of the extension chosen, as defined by the Trustee Authority and/or the Registry concerned.

These contracts are binding between You and the Trustee Authority and/or the Registry. The special conditions contained herein do not replace these rules, but rather form part of them. You acknowledge to have fully understood and accepted these rules.

Furthermore You agree to accept the IP Mirror conditions and rules available at the following addresses:

- Privacy Policy:  
[http://ipmirror.com/en/service\\_agreements/agreement\\_privacy](http://ipmirror.com/en/service_agreements/agreement_privacy)

Under the rules of certain Registries and IP Mirror, You do not acquire property rights of the domain name registered but rather that You are granted user rights of the domain name. Therefore, You are generally not entitled to allow third parties to use Your domain name or to sell or assign it to another person, whether for profit or not, without prior consent of the Registry and/or IP Mirror.

Furthermore, pursuant to IP Mirror rules, You must specify nameservers (DNS) that are correctly configured for the domain name that You intend to register. The DNS listed must be operational within 30 days following the registration of Your domain name. Otherwise, the Registry will be able to delete Your domain name.

In accordance with Our Contracts, You agree to provide and maintain accurate, reliable and up-to-date personal contact information, failing this, the Registry concerned can delete Your domain name or refuse its registration. You also accept that the Registry and IP Mirror can access Your personal contact information and display it in the public Whois database.

The registration of a domain name in some proposed extensions is done manually by the Registry concerned. The validation and processing time of Your application by the Registry can therefore vary from several hours to several weeks depending on the extension chosen.

In addition, the registration of a domain name under some proposed extensions requires the submission of a form and/or documents allowing to the Registry to verify Your eligibility to the registration of a domain name under the extension chosen. In this case, the registration of Your domain name will be effective only after receipt and validation of these documents by the Registry.
