Section .REPAIR.4. Special requirements

.REPAIR special requirements are available at: <https://www.gandi.net/domain/repair/info>

.REPAIR domain names are open to anyone.

Section .REPAIR.5. Sunrise

5.1 Eligibility rules

Only owners of a trademark registered with the trademark rights protection mechanism "TMCH" (Trademark Clearinghouse) established by ICANN are eligible to make a request during the Sunrise period.

As a TMCH trademark agent, Gandi can proceed with the registration of Your trademarks with TMCH (service reserved to Our Corporate customers, please contact Our [Corporate team](#)).

Eligibility conditions concerning the registration of a trademark with TMCH and the applicable rules are available at the following address: <http://www.trademark-clearinghouse.com/downloads>

Once Your trademark has been validated, TMCH generates one or several "labels" strictly identical to Your trademark.

Upon the submission of Your trademark with TMCH, You can choose the Sunrise service, provided that Your trademark has been validated by TMCH. The Sunrise service includes:

- generating a "SMD" (Signed Mark Data) file that proves the validation of Your trademark and allows You to make a registration request during the Sunrise period for one or several domain names strictly identical to the "label(s)" generated, provided that You comply with the eligibility conditions and rules enacted by the Registry,
- sending notifications (NORNs) that inform You of the registration of a domain name identical to Your trademark by a third party during the Sunrise period.

During Your registration request on Our interface, You must upload Your "SMD" file for verification.

5.2 Allocation rules

Sunrise applications are not reviewed on a "first-come first-served" basis, they will be considered as having arrived at the same time:

- if only one qualified application is made for a domain name, the domain name will be registered on behalf of applicant within the days following the end of the Sunrise period,
- if multiple qualified applications are made for the same domain name, the domain name will be subject to closed auction between all applicants for this domain name. The rules applicable to the auction procedure will be available on [Donuts](#) website.

Donuts notifies all Registrars through which a request made in Sunrise period is subject to a pending auction. Gandi commits itself to sending You any notification received in this context. At the end of the auction procedure, the Registrars are notified of the allocation or not of the domain name to their customer.

The Registry and/or Donuts notify TMCH of the registrations made in Sunrise period. When a domain name is allocated to You in Sunrise period, the third parties that are the owners of an identical mark registered within TMCH are also notified of Your registration.

5.3 Dispute resolution

Any dispute relative to the validation of Your trademark with TMCH must be submitted in accordance with the dispute resolution procedure established by TMCH:

<http://www.trademark-clearinghouse.com/dispute>

Any dispute arising from the allocation of a domain name during the Sunrise period must be submitted in accordance with the dispute resolution procedure established by Donuts that You agree fully abide by:

<http://www.donuts.co/policies/sunrise-and-dpml-dispute-resolution-policy>

5.4. Refund Conditions

In any case, You will not be entitled to receive any refund if Your application is rejected (eligibility criteria not met, "SMD" file invalid or revoked ...) or if the domain name is not granted to You (domain name granted to an other person during an auction, if a third party has successfully challenged the domain name registration ...).

Section .REPAIR.6. General opening

On general opening, the domain name will be allocated on a "first-come first-served" basis.

6.1 "Trademark Claim Notice"

In accordance with ICANN rules, during 90 days upon the general opening, a "Trademark Claim Notice" period will run.

During this period if the domain name for which You requested registration is identical to a trademark that is registered and validated with TMCH (according to the "labels" generated), You will received a warning notice ("Trademark Claim Notice") in real time on Our interface informing You that a third party has rights to the domain name You requested.

You must confirm or cancel Your registration request, with full knowledge of the notice and its consequences. It being specified that if You do not confirm the notice, Your request will not be send to Donuts.

If You confirm Your registration request, the third parties that are the owners of an identical mark are notified of Your registration.

For requests made in preregistration, beginning one day prior to the general opening, Gandi will notify You by email of the "Trademark Claim Notice" and Your registration request will be put in "error" until You confirm or cancel Your registration via Our interface. It being specified that, in accordance with ICANN rules,

if You do not confirm the notice, Gandi will not send Your registration request to Donuts upon the general opening and can not, in any case, be held liable of the non-registration of Your domain name and particularly if the domain name is registered by a third party who has validated the "Trademark Claim Notice" upon the general opening.

It is Your sole and entire responsibility to confirm, if You want, all the notices received before the general opening and the sending of Your request to Donuts.

6.2 "Early Access" period

During the first 7 days of the general opening, Donuts has an "Early Access" period during which the registration of domain names is subject to additional costs decreasing over time.

The registrations during the first 4 days of this period are not available on Our interface, You must contact Our customer service department.

It is specified that if You do not contact Our customer service department and pay the additional costs, the requests made in preregistration will be only be sent to Donuts after the "Early Access" period.

<http://www.icann.org/en/about/agreements/registries/repair>

(specification 5. schedule of reserved names), names containing two characters followed by two hyphens and names beginning or ending by a hyphen are not allowed.

The registration of "premium" domain names is not available on Our interface, You would need to contact Our customer service department for this.

For requests made in preregistration, if the domain name You have preregistered is a "premium" domain name, Your request will be put in "error" and You will be notify by email. Then You will be able to either pay the additional costs applicable to "premium" domain names in order to validate Your registration request or cancel Your request. It being specified that if You do not contact Our customer service department and do not pay the additional costs applicable to "premium" domain names, Your registration request will be not sent to Donuts.

Section .REPAIR.8. Registration term

The registration term is 1 year for requests made during the Sunrise period, and from 1 to 10 years for requests made during the general opening. To avoid any deactivation of the domain name, the renewal must be paid and funds cleared **before the Expiration date**.
